

**Amendments to the claims**

Please replace all prior versions and listings of claims in the present application with the following listing of claims:

**Listing of Claims**

1. (Currently amended) Multipart male mold plate (1) for a form tool for injection-molding of molded articles, in particular PET preforms (6), said male mold plate (1) comprising a base plate (2) and a stripper plate (3) having a slide (4), on which slide (4) there is provided a plurality of separable male mold cones (5, 5'), and there is provided at least one hydraulic drive (12) for completely opening the male mold cones (5, 5'),

characterized in that the hydraulic drive (12) is secured to the slide (4) and rests against the stripper plate (3) and

the male mold plate further characterized in that an inclined drag element is secured to the base plate and actuates the slide in such a way that it opens the male mold cones merely for a detachment stroke at a position between a closing position and an extraction position.

2. (Previously presented) Male mold plate according to claim 1, characterised in that the hydraulic drive (12) cooperates with a pull-back spring.

3. Canceled.

4. (Original) Male mold plate according to claim 1, characterised in that the hydraulic drive (12) cooperates with a second hydraulic drive for opening the male mold cones (5, 5').
